THE EUROPEAN CHAMPION CLUBS CUP, **SENIOR WOMEN: A BIT OF HISTORY**

The European Cup of women's national champion teams of track and field events whose official name is now "European Champion Clubs Cup, Senior Women" was founded with the idea of giving national winners of this event a chance, to compare their physical alertness in a friendly and fair atmosphere with clubs of similar qualifications from other European countries. In the short history of European club athletics for women it has become apparent, that this competition is a unique one in the life of track and field athletes and their clubs, because winning the club championship means a chance of participating in a spectacular international event, even for those, who would not be able to take part in international competitions. The overall club result is important for everybody, so no teammate should forget to do her utmost.

The hour of birth of the idea, to unite the best European women's club teams in a competition to compare the standards of their physical condition in track and field events, was in a meeting held in Milan on February 14, 1981. The president of the famous club SNIA Milano, Dr. Paolo Maria Fumanti, had invited the representatives of different clubs, which had been winners in national women's club championship. So Raymond Lorre of Stade Français of Paris, Peter Vucovic of Partisan Belgrade and Karl-Heinz Naujoks and Helmut Jacobi of LG Bayer Leverkusen. These together with Franco Sar, Mario Fabbi, Prof. Ennio Preatoni, Dr. Carlo Monti and Heinz Beulke of the hosting club, discussed the general plan of the cup and first draft of the regulations was drawn up. After the terrible earthquake in southern Italy, spring 1981, the Italian Government submitted the performance to the city of Naples to cheer up the inhabitants of this areas. In July 1981 the first edition of the cup was realized in this city.

Until 1994 all clubs have participated in one competition at one venue. As from 1995 the ECCC, Senior Women has been organised in groups of normally 8 teams.

THE COMMITTEE

Since then, the cup has taken place every year with growing participation. This positive development carries with it great administrative, technical and financial problems. Accordingly, during the 5th European cup in Zurich in 1985, the team representatives elected a permanent international committee of three members. Its duty is to handle the above mentioned problem and to provide for the continuity of the cup. Furthermore the committee has to entertain close relation to the European Athletic Association (E.A.A.) to upgrade the cup internationally on the grounds of its spirit and reputation.

Since 1995 the ECCC, Senior Women have the status of an observer with the Euro Meetings-Association.

The international Bureau of the ECCC, Senior Women is settled at present in Switzerland.

The full address is now: Mrs. Eveline Hodler-Urfer
