

*Success – different way to it.*

*Success - the action at the highest level of unit capabilities, towards the fulfillment of individual dreams and desires while maintaining a balance between all the areas of life.*

*Otherwise, we can also say success is a deliberate action, implemented within a specific time frame.*

*For each individual success can be seen in a different way.*

**A look from a different perspective.**

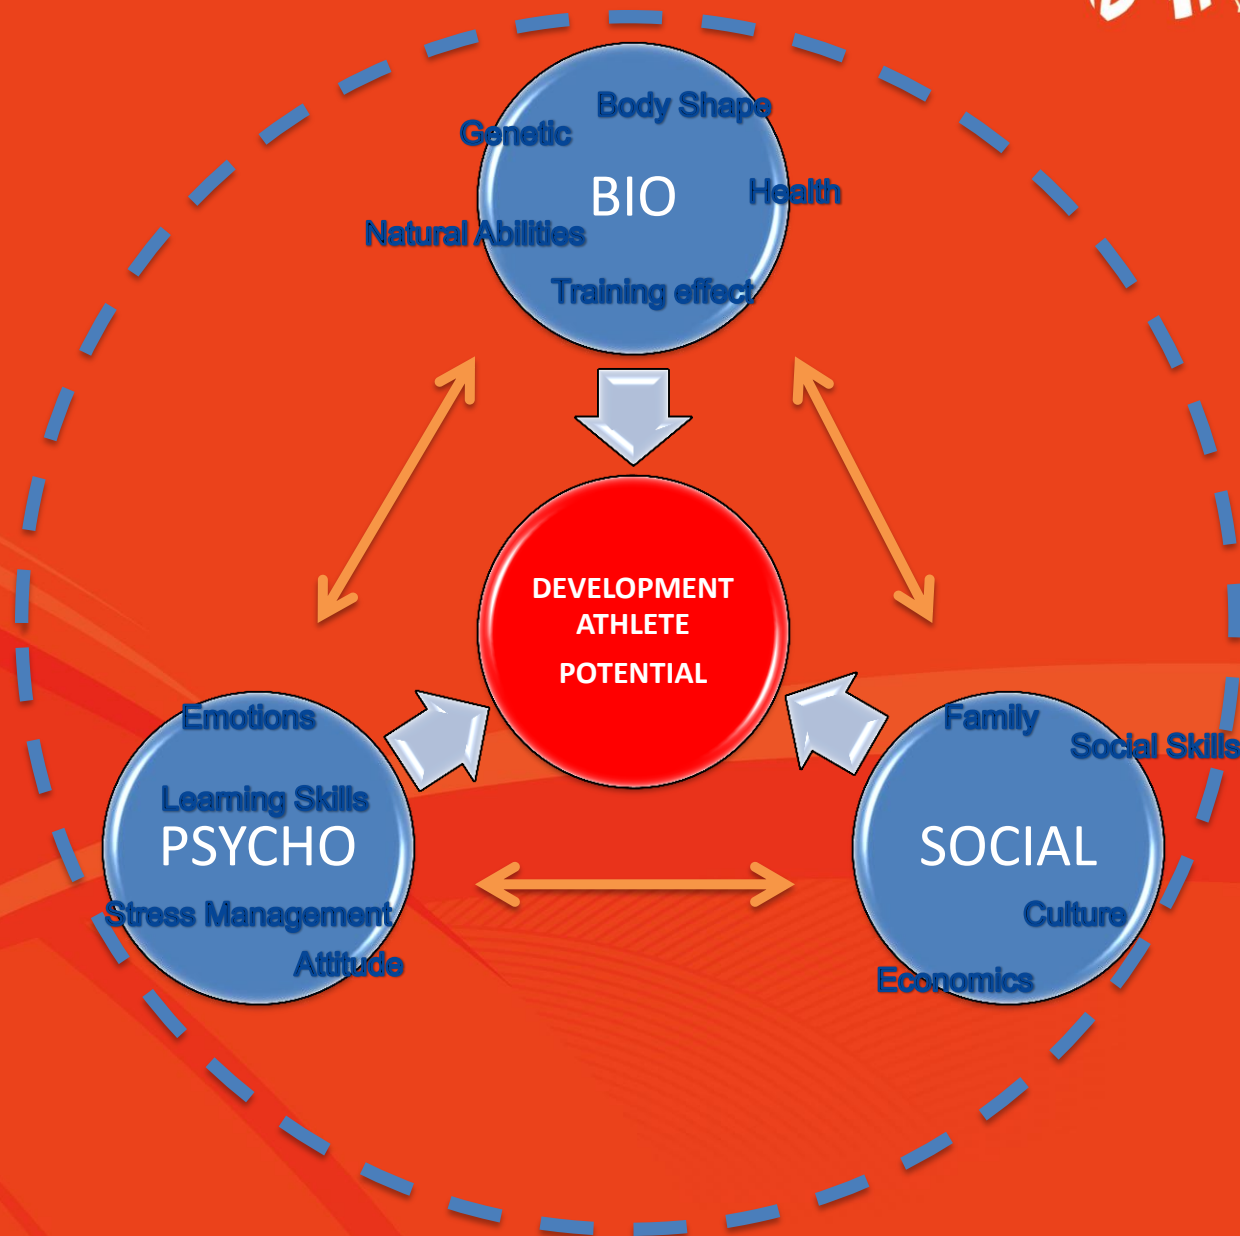

**Systems approach vs. individual approach.**

**We should remember all the time “Everything we do impacts a human being ”**
