I-99-0134	Nelco	Turned iron, dia: 125mm	Black
I-04-0305	Polanik	Steel, dia: 128mm	Various

Additional implements may be added to the official list, if requested by the Member Federations directly, or by the manufacturers with the endorsement of a Member Federation, to European Athletics by 1 July 2019, and if supplied to the LOC free of

charge. All such implements must have IAAF certification and must be approved by the European Athletics Technical Delegate. At least three items of each implement must be supplied by the Member Federation or manufacturer concerned and delivered to the LOC by 1 September 2019 at the latest.

Personal Implements shall also be allowed, providing that:

- They have IAAF certification in force.
- They are not already on the official list.
- They are in good conditions and the brand is easily recognised.
- They have been checked for compliance with IAAF Rules.
- They are made available to all the other competitors.

Personal implements will have to be submitted to the TIC the day before the event and no later than 18:00. If a personal implement cannot be accepted into the pool because it is not meeting the specifications or being unidentifiable, the relevant team will be notified via the TIC. An explanation for the rejection will be added.

In order to speed up the checking of eligible personal implements, please come prepared and consult the IAAF list on the website (<https://www.iaaf.org/about-iaaf/documents/technical>) in advance to identify the implement noting its IAAF certification number.

If you do not find your implement in the list but you believe that it is/was certified, please contact the IAAF office at technicalofficer@iaaf.org so that its status can be checked and confirmed to you and the LOC in due time.
